Skills:

Ruby on Rails 6 years

React 4 years

Experience

Medihive medihive.com

Oct 2022 to Present

Full-stack Developer Remote

At Medihive, I work mostly with Ruby on Rails. We are a cross-functional team, with a focus on delivering the best possible product to our clients. I do work on the company's internal tools, such as the admin panel and doctor panels, as well as the client-facing website. I am full-stack, so I also work on the front-end, using mostly ERB and some React in small projects. I've been gradually increasing my responsibilities in the company, as well as owning and developing features.

BitZesty bitzesty.com

Aug 2021 to Oct 2022

Ruby on Rails Developer Remote

As a Full-Stack Software Developer at BitZesty, I've had the opportunity to work fully remotely in Ruby on Rails on a cross-functional team. Here I worked on several projects with different ruby and rails versions, trying to find the best budget conscious solution for clients.

Landing.jobs landing.jobs

Feb 2020 to Jul 2021

Full-stack Developer Lisbon, Portugal

At Landing.Jobs, I worked my way up from Junior to Mid-Level Software Developer in under a year. I had the opportunity to work with Ruby on Rails, React, Typescript, GraphQL and CSS. This was my first developing job and I was able to apply my skills in a real-world setting, contributing to the company's success.

Accenture Portugal

2019 to 2020

Technology Trainee Lisbon, Portugal

At Accenture, I mainly worked with VBA and a Customer Care & Billing software, in Java. It was my first experience with any of these languages, which I acquired reasonably quickly at a basic level.

WeDo Technologies

2019 to 2019

Junior Consultant Lisbon, Portugal

During my tenure at WeDo Technologies (now Mobileum), I worked with their proprietary software 'RAID'. This is a logic based development software. I had the chance to work in a very small team and work a bit with unix, VMs and JavaScript.

Education

University of Exeter

Sep 2015 to Aug 2018

Batchelors of Engineering, Electrical and Electronical Engineering
Activities and Societies: Vice-captain of the Basketball Club

LeWagon

2018

Coding Bootcamp
