

VASCO KAUFMANN FIGUEIREDO

About me

Web Developer always looking to continue learning and developing, both as a programmer and as an individual. My interests include watching and playing basketball (a lot), reading and recently, 3D modelling and printing. Very interested in traveling and experimenting new cuisines.

Experience

Ruby on Rails Developer - *Webdoctor/Medihive, Remote* Oct 2022 - Present

As a Full-Stack Software Developer at Medihive, I've had the opportunity to work on several projects within the company, both in-house and for clients. My main areas of focus are Ruby on Rails, with some React work, as well as GraphQL and DevOps. I've been gradually increasing my responsibilities in the company, as well as owning and developing features.

Ruby on Rails Developer - *Bit Zesty, Remote* Aug 2021 - Oct 2022

Work for multiple clients. I mainly worked with Ruby on Rails in different versions, as well as carried out rails upgrades, work with Heroku, Fly.io, Docker, AWS and some React Native. I also had my first introduction to a fully remote, distributed team, which I really enjoyed being a part of.

Full-Stack Developer - *Landing.Jobs, Lisbon* Feb 2020 - Aug 2021

At Landing.Jobs, I worked my way up from Junior to Mid-Level Software Developer in under a year. I had the opportunity to work with Ruby on Rails, React, Typescript, GraphQL, Docker, and Typescript, as well as being introduced to Agile methodologies.

Full Stack Developer - *LeWagon, Lisbon* Oct 2018 - Dec 2018

Coding bootcamp focused on Ruby on Rails. Main project worked in a group of 4 developers where I was the team lead. We designed and implemented a 2-sided marketplace in a week, and created the responsive website for a custom project in 2 weeks.
